7.15 p.m.

THE Governor met a deputation of Peak Residents yesterday afternoon and took occasion to express his mind pretty freely on such subjects as the Peak drainage and water supply, the claims for a municipality, the extension of the population, the dearness of rents, &c. His mind is evidently a strange compound of autocratic and de-Par Memnon, at 11.3 a.m., on Saturday, morratic principles, and, as might be expected from the peculiarity of the composi tion, the opinions which he expressed were highly inconsistent. At one moment he appears as an autocrat revolutionising the system of drainage at the Peak; at another moment - when the question of paying the expense comes up-he is an advanced democrat ready to hand over the control of the Peak to a popularly elected municipality of the residents there. At one time, we find him declaring that he has ontered again without consulting the parties interested-into a contract with the Electric Company to supply water to the Peak at a given rate; at another time he asserts hat the question of paying for the supply is one that entiraly conberns the residents there, and that he is absolutely determined as long as he is Governor that he will not sup. pythe Peak at the expense of the other parts of the Colony. Then again this absolute

is open to conviction,

The work of supplying water and an efficient drainage system both in the upper and lower levels has been sadly muddled. The Colonial diffice, seeing the plight we have lauded ourselves in, has dispatched a special commissioner to enquire into these important subjects and to devise Goods per Steamer Congo unclaimed means to extricate as from the mean. The report of that gentleman may overturn a great deal of what has been going on recently, and until his opinion is known none of the vexed questions can be settled one way or the other. In view of Goods per Pelyhymnia undelivered after this the opinions expressed by His Excellency to the deputation yesterday cannot have the weight they would otherwise have. They are important only as a revelation of the policy he is endeavouring to pursue and His Excellency begins by stating that the Government cannot undertake Mr Leigh's scheme at the present moment; and the reason he gives for this is that the cost will have to be borne almost entirely by the Peak residents and would be heavier than the present position of the Peak would warrant. The decision of the Government may be a proper one. In the absence of particulars with regard to the cost of constructing Mr Leigh's reservoir and distributing the water and the cost of pump impossible to rightly estimate the respective values of the schemes. It is more with the money out of the Colonial chest for the Peak resident every imagined that the supply of water cost free. That would be ments, to saddle the Peak residents with may be adopted. If the principle of difhave the residents who are drinking the mud-water of Pokfulam refusing to pay as high rates as those who are enjoying the sweet waters of Tytam. The fact must not be overlooked also that the water rate of the Colony has hitherto been more nominal than real. It has not been increased since the construction of the Tytam works. Instead of fixing a rate which would pay for their maintenance and the interest on the money expended, the whole of the money has, to use a phrase of His Excellency's, been taken out of the Colonial chest. Not the waterrate but the general taxation of the Colony has been increased in consequence, and the share of that taxation. They have also, at the last four or ave years, contributed not a little towards the cost of Tytam water by the heavy promis they paid for the land His Excellency's reply to this latter argument-' if you choose to pay the premium that is your affair '-was absolutely childish. If the premium had not been paid the coffers of the Colony would not be so full and we would still be far in arrears with the Tytam works. Then it is only fair to the Peak people to bear is mind that the demand for increased water supply has been created by the Government itself.

According to their leases the most of the residents on the hilltops should drain into cesspita. Without ever consulting them Price, \$1 per or without a word being said in the Legis. lative Council, an entirely different system of drainage is introduced; and when the Government has almost completed this work, it is discovered that the drains are a inuisance and will remain a nuisance until they are properly flushed. To flush them a large supply of water must be obtained; and for this the Governor now sake the Peak residents to pay in full. Were they to be as must not be forgotten that a considerable

number of these living at the Peak, especially those who live all the year

regardless of the interests of the Colony as His Excellency is of theirs, they would cut off their drain connections and drain again into their casspits, and then their well water would be all but sufficient for their needs. We do not say that the new system of CONGRONG, THURSDAY, NOVEMBER 14, 1889. draininge at the Peak, were it properly carried out, would not be an improvement on the old, but the all-essential element to its success, an abundant supply of water, ought to have been seen to before the drains were laiddown. The work having been done without the opinion of the residents being asked on the matter, it is the height of importinence for the Governor to turn round and say that they might now establish a Municipal Council and look after their own affairs-that is, look after the raising of the money for the completing of the work done on the Government's own responsibility. If the Peakites are so fit to look after their own affairs, why was their advice not taken before the costly drainage system was begun? And even now that the Governor has been converted to the idea of the posmibility of a Peak Corporation managing its own affairs, he does not betray much trust in the body he would create, for he decides lumself that pumping Tytam water is preferable to the construction of a reservoir and has already morally committed himself to accept the offer of the Electric Company, We quite endorse the opinion that the poor' people in the valley ought not to pay for benefits enjoyed by wealthy people on the top of the bill. But justice must be done -even to wealthy people. And it

ASRATED WATERS. bodying all the latest improvements in ing Tytam [water and distributing it, it is appliances for ensuring purity in the reason for the decision that we wish to Water supply, to secure which we have deal. The Governor says he cannot take and are now in a position to compete in purpose of giving the water supply. We quality with the best English Makers. Our do not suppose that the most sanguine The purest ingredients only are used, | Colony was to provide him with a bountiful FOR COAST PORTS, Waters are packed manifestly unjust to the residents in the and placed on board ship at Hongkong lower levels; but it would be equally unprices, and the full amount allowed for just, at least under the present arrange. Counterfoil Order Books supplied on the whole of the cost of any scheme that whenever practicable, are despatched by ferential rates is to be adopted we would Our Registered Telegraphic Address is, DISPENSARY, HONGKONG, kept ready in Stock :-PURE AERATED WATER SELTZER WATER SARSAPARILLA WATER TONIC WATER dirty, or greasy, or that appear to have Peak residen a have contributed their fair been used for any other purpose than that of containing Aerated Waters, as such bottles are never used again by any rate those who have bought land within

round, can by no means be called wealthy.

determination becomes modified before the end of the enterview into the admission that his opinion is not conclusive and he It would be a most unjust thing to tack on

to the rates at present paid by these tosidents the whole of the expense of any scheme for the supply of water that may be adopted. They bought the land at very high rates in the expectation of having a fair supply of water, and, as we have said, the very price they paid for their land has partly paid for the water the residents are drinking down below. If the Government intends going in for differential rates, it must first of all impose on the residents in the valley a water-tax corresponding to the cost of the Tytam scheme and the improved Pokfulam service. If this were done, it would of course be possible to reduce some other taxes, and the residents at the Peak might, with some show of justice, be asked to pay at least a part of the extra expense involved in pumping water to them or in providing a new supply We fear, however, that the differential system cannot be fairly carried out, for there are many cases such as those cited by Mr Mackintosh, in which it would, if generally applied, be very prejudicial to the revenue of the colony. It must cut both ways. If our system of taxation is not revolutionised the only equitable solution is to impose the town water rate on the Peak residents, plus It must be borne in mind that a large THE Yangisd, with the next French mail, increase in the texation of the Peak would leaves Singapore at 10 a.m. to-morrow; lower the value of land on the hilleide, and 15th, and is due here about 23rd. the Government would obtain far less for the land it sold. The Governor, it is true, does not think that there will be much extension of building on the hillside. In his opinion there are already more houses coustructed or in construction than are sufficient to meet the small growth of the white population, and routs in the Caine Road and Robinson Road are, he thinks, sure to come down. We do not feel quite so sanguine as His Excellency as to the fall of rents. It is certainly a consummation greatly to be desired, as house accommodation is abnormally dear in Hongkong, so dear nor yesterday afternoon, a report of which that family life is impossible to all but the wealthier class of Europeans. It is mainly for that reason that residents, with the exception perhaps of the landlords interested, viewed with satisfaction the development of of the Peak district as a relief to the pressure on the lower levels, alongand up which the Chipses are gradually encroaching. If His Excellency has any design of restricting the development of the hill-district, either by greatly augmenting the taxes or restricting the building area, he is working against the best interests of the Colony and for the benefit of none but a few landlords.

There was a good deal in the side issues raised by the Governor at the meeting yes-Mr. Wodehouse to-day concluded the inquiry terday which call for comment. For example, we are told that a Municipal Council is not suitable for Hongkong because it is a fortress. Singapore also is a fortress, and what is more a fortress with guns, and yet. shop. They showed that the goods in the it has a Municipal Corporation which does much good work. Then we are so busy in Hongkong that none of our best mon have time to look after public affairs. If we only took things as coolly as they do at Shanghai, where, according to the remarkable discovery made by the Governor-a discovery which will actuaish most reaidents of the Model Settlement-they have nothing to do for two or three days a week, then we might get a Municinal Coancil, but until we get into that drowey condition we must leave all our affairs in the hands of His Excellency's benevolent autocratic government. Besides, we are such a mixed community. Not only Jews and Gentiles are congregated. here, but Celestials and barbarians of all types find a lodging on our small island. They are somewhat more mixed in Singapore, and yet the Municipal Corporation there manages to get on fairly well, concilisting as far as possible all rival interests. But then the Governor would doubtless say that we are not Singapore, and that of course ought to stop all further discussion.

Taball colony. A permit having been obtained, lendeavour to present the case to their white population than at present. I do supposed to be due here by the middle of have no light; but I shall have to pay rates the opium was placed on board a junk to be Lordships, and perhapsif there was no other not see the necessity therefore of jumping September. However, by our last letter, just the same. taken to the other side. For the convenience : object to be gained it would bring about a at once to so large a scheme and one which dated 11th October, Mr Hart, our consult. of landing the opium, which had to be done | clearer expression of the law. He could would cost such a yery large sum of money. in ; engineer, writes us that the things are | tion of proportion. A man may go and put by carrying it through a stretch of shallow only say the wholel intention of the ordin- Moreiver I think we have a good chance not yet ready, but he had written to the up a house on the top of Mount Parker and water and mud, it was, on the way across, ance was to provide for any possible one of providing what you want for a good deal contractors to learn the reason for the delay say we must supply water to him there. taken out of the boxes and put into and to express the conditions under which less. It escaped my memory at the time, and impress on them the necessity of got. Whether or not the Peak residents are bage which could be more easily carried than large cheats, and to further expedite

> the ordinance absolutely and expressly prohibited anything of that kind being done. The Acting Chief Justice said that seemed to him to be the only question. Mr Francis said the section under which the appellants had been convicted said-'No person except the Opium Farmer or the licensed retail dealers shall have in his possession or under his custody, or control or ium in less quantities than one chest; without a cortificate of nurchase from a liconcee except he can show to the satisfaction of the Magistrate that said opium is covered by a certificate of one of the licencees, or that he has received it under an official export permit." submitted that the words quantities less than one chest' must mean, and could only

> matters the bags were transferred to sam-

pans which would go across quicker than

the junk. Now the question was whother.

mean, in quantities less than the quantity contained in one chest. A chest of opiumwas not a quantity; it was defined to be the package with the opinm therein such as is usually imported by merchants in the Colony. That was not a definition of the phrase. "quantities less than one chest for f quantity equal to a chest; it was simply the definition of the one phrase chest of opium.' Therefore if their Lordships confirmed this conviction they would go to the extent of saying that, if through any accident whatever the original package in which the opium was imported was broken or damaged in any way so that it could not be put together, there was a breach of the ordinance and the owner of that opinm

might be convicted. The Acting Pulane Judge-Suppose a chest of opium got broken on board ship and twenty balls were taken out. Mr Francis said in that case the master of the ship might be convicted, according

to this reading of the ordinance, of having opium in quantities of less than one chest, although he might have five hundred chosts altogether. He submitted, however, that such an interpretation of the ordinance was

The Acting Chief Justice said he supposed it might be admitted that one of the objects of the ordinance was to keep raw opium as far as possible in the chest. Mr Francis said that was undoubtedly

the intention The Acting Chief Justice—But you would say a person could sell a chest and a half of

Mr Francis-Certainly, that is done in quantities less than one shest. The Acting Chief Justice asked if this argument had been addressed to the Ma

Mr Francis said it had been; he subnitted that the quantity was considerably over one chest. He reminded their Lord. ships that this was a penal ordinance and ught to be construed as strictly as possible and if the case did not come completely and entirely within it there ought to be no conviction. He submitted that there was a very broad difference between the phrase chest of opinio, and the phrase 'quantities less than one chest, because a chest was not a quantity, it was defined as a

The Acting Chief Justice said a chest could not be a quantity.

Mr Francis and that was the only question n the case, and he submitted that on the face of the ordinance the appellants were entitled to their Lordships' judgment. The Acting Attorney General aubmitted that the conviction of the magistrate was

correct and that the grounds on which the about three fourths of the usual quantity | orrect. It might be that their Lordshire tained, only one fourth, while many other | g nur do or that it might have been made

Besides seption 11 dealt with a different offence altogether.

Kwangsi and Fouchow boutmen in the committed under section II and not under serve that the magistrate had laid his conviction on section 6 taken in connection with acction II.

The Acting Chief Justice said it was not only a different offence that was dealt with by section 11, but it was an offence in punishable in a different way. The section rendered a person liable to a fine of \$1,000. while the other aection randered him liable to a fine of 8500.

The Acting Attorney General said with regard to section 6 their Lordships would see that the whole object of the ordinance was to regulate and control the moving of the Peak. Among those present in the probable or comparator at the rate throughout the policy of the Peak. Among those present into a control at the part of the probable or comparator at the rate throughout the part of the part of the peak. IN ORIGINAL JURISDICTION. (Before Hon. Mr Justice Fielding Clarks. cting Chief Justice).

BRUC S SHEPHERD V. PUN FOND S. RUSTON THE'H BINKRUPTCY. The Acting General (Hon. A. J. Leach) instructed by Messis Wotton and Descon. appeared for the plaintiff; and Mr Francis. Q.C., instructed by Mesars Ewons and Reece, for the defendant.

The Acting Attorney said this was a suit by the Official Assignee of the estate of sirabjee Rustomjee, bankrupt, to set aside and have a declaration made that of sale dated before the bankorder made that the goods and chattels mentioned in the bill of sale be handed over to the Official Assignes. The petition

was as follows :--1. The plaintiff is the Official Assignee of the Estate and Effects of Sorabjee Rustomjee, who was adjudicated a bankrupt under the provisions of the Bankenptcy Ordinance 1864, on the 28th day of October, 1889. 2. The defendant is a gentleman residing

in Hongkong aforesaid. 3. By a Bill of Sale dated the 16th of July, 1889, made between the said Sor rabice Rustomies of the one part and the defendant of the other part, the said Sorabjee Rustomjee expreshed to assign unto the defendant, his executors, administrators. and assigns the several chattels and things specifically described in the schedule to the said Bill of Sule, by way of security for the navment of a sum of \$10,000 and interest at the rate of 89 per centum per annum. The said Bill of Sale provides (inter alia) to the effect that if the said Sorabjoe Rusfendant) it should be lawful for the defendor any of the said chattels and things as therein more particularly mentioned; and out of the sale moneys to retain, in addition to the principal and interest then remainincurred in relation to the anid security and to pay the surplus, if any, to the said Sorabjee Rustomjee; and it is therein further provided that upon any such sale the party whether any hugh default has been under

The plaintiff craves leave to refer to the said bill of M. S. 4. The defendant is now in possession of the said chattels, and things comprises in and assigned by the said bill of sale.

. b. The said bill of sale is not in secondance with (and has not the legal effect of) the form in that behalf prescribed by the Bills of Sale Ordinance 1886 and the plaintiff is therefore entitled to the said chattely and things comprised therein and assigned. thereby as such Official Assigned as afore, said, but the defendant has refused and will refusas to give possession thereof to him.

The plaintiff therefore prays -1. That it may be declared that the said Bill of Sale is void. 2. That the defendant may be ordered to give possession of the said chatrels and

things to the plaintiff forthwith. 3. That the defend at may be ordered to pay all costs of this suit, or, That the plaintiff may have such further or other relief in the premises as to the

Court may assur fit V to citize IV . The Acting Attorney General, continu ing, said that by the answer the first four parapraphs of the petition were admitted and the statement con airied in paragraph was put to the. this case the only question was the question of aw whether this bill was in ac-

it that the same book Tettas the form prescribed by the Ordinance, After the question had been argued at onsiderable length by the Acting Attorney General, who cited numerous authorities and cases in support of his contention that

cordance with the Ordinance and whether

THE CHINA REVIEW.

PUBLISHED BI-MONTHLY. HIB Review, which was intended to meet

the wants of many atudents of Chinese caused by the discontinuance of Notes and Queries on China and Japan, has resched its Eighteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the Far East and about which every intelligent person con-nected with China or Japan is desirous of Requiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manuers and Customs, etc., etc., of China, Japan, Mongolia, Tibot, and the Far East generally. Recently a new departure has been taken, and the Review new gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction; the Magazine would be mademore generally

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give oritiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to Editor, China Review, care of China Mail Office.

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points.

The Correspondents' column also affords farther and greater facilities for the interchange of views and discussion of various

Original contributions in Chinese, Latin or any of the Modern Languages are re ceived. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Mossre Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles. Piton, and Taylor, -all well-known names indicative of sound scholarship and thorough mastery of their subject

annum, postage included - payable in ad-Orders for binding volumes will be promptly attended to; Address, Mannger, China Mail Office.

The Subscription is fixed at \$6.50 per

OPINIONS OF THE PRESS. 'All our learned societies should subscribe to this scholarly and enterprising Review. - Northern Christian Advocate (U.S.) The China Review * * * has an excollent table of contents. - Celestial Empire. The Publication always contains subjects of interest to sojourners in the Far East and required to be declared prior to chimment. the present issue will hold favourable if not advantageous comparison, with preceding numbers.'-Celestial Empire.

This number contains several articles of interest and value. '-North-China Herald. 'The China Review for September-October | pany's Office. fully maintains the high standard of excellence which characterises that publi- for MARSEILLES. cation, and altogether forms a very interesting and readable number. Moteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Rus. wian Observatory at Peking, from 1841 to 1880. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of Ner Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries are as usual very interesting.' -- North-China Daily News.

'A substantial and reliable Review which

all students of China and the Chinese would

do well to patronise. - Chrysanthemum,

'The November-December number of the China Review contains less variety than usual, but the few articles are very interes-A. Giles on "The New Testament in Chiness? treats of a question that must necessarily be of great importance in the eyes of all missionaries. . . Mr E. H. Parker's "Short Journeys in Szechuen are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number. —H.K. Daily Press.

following notice of the China Review:-

The present publication, judging by the

number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to say nothing of linguistic studies, has led to the lilowed a discount of 10 %. This allowence accumulation of important stores of inform. ation, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members in the United States, should be sent to the of the foreign consular services, the Chinese Company's Offices, addressed to the Collec-Customs corps, and the missionary body, tor or Customs, San Francisco. among whom a high degree of Chinese scholarship is now assiduously cultivated, or Passage, apply to the Agency of the and who are severally represented in the first Company, No. 50a, Queen's Road Central. number of the Review by papers highly creditable to their respective authors Some translations from Chinese novels and plays are marked by both accuracy and fresh. ness of style; and an account of the career of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, Is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to Ohina and the East, which will be a useful feature of the Reserv, if carried out with punctuality and detail, we are glad to notice that Notes and Queries are destined to find a place in its pages also. It is to be boned that this opening for contributions on Chinese subjects may evoke a similar degree of literary seal to that which was CRIWFORD & Co., Hongrong, and at the displayed during the lifetime of its predepersor in the field, and that the China Review may receive the support necessary to insure te continuance.

Our Jobbing Department. with a large assortment of the latest RUBOPBAN and AMERICAN NOVELTIES. we are prepared to execute orders for BANCY WORK with neatness and despatch, and at very moderate rates.
